A message from the CEO,

We opened in Florida and we will now start opening in nearby states. Michigan will be the next opening within a 3 month timeline.

I truly appreciate everyone in the company and all of your hard work.

You can achieve your dreams, when you start by taking the first step everyday toward your goals. You have to realize the number 1 way to succeed is to become the best role model and network, network and network with everyone. Start your public image today and help others on a daily basis; whether through good will, gifts or simply living a positive life. Day by day, you can get closer to your dreams,

Your Power comes from Within

Jesse Snyder

In the beginning of my career, probably the most important thing for me was able to have a Mentor Leader, I could call and speak directly to. This gave me the confidence to sell.
